

MailRunner®

Introducing MailRunner®, the most productive high-speed mail addressing print system available anywhere.

MailRunner® comes standard with our eZ-Inkjet® high definition printer that prints at 2.13" (54mm) or at 4.25" (108mm) or our Marcador Pro - HP cartridge based printer that prints 2 or 4 inches.

MailRunner® is powered by our GTUS System Controller with over 4,000 installations worldwide and customizable with many optional capabilities, such as support for cameras and barcode readers for verification or read and print.

"Start with a 2" printer at great price and upgrade to 4" later if required."

Includes:

- Vacuum friction feeder supports products from 3.0" minimum up to 19.5" maximum in width and 3.0" to 28" maximum in length and 1" thick.
- Vacuum transport base supports products from 3.0" to 17" wide and from 3.0" to 20" long. Variable speeds infinitely variable from 1 to 375 feet per minute.
- eZ-Inkjet 2.13" or 4.25" high definition UV or water inks or Marcador cartridge thermal printer with water, or solvent based cartridges. 8.4" Memjet is coming.
- GTUS® software support for addressing and town sorting, barcode reading, camera verification and read and print.
- Choice of different LED-based curing lamps ranging from 75mm to 150mm. Also available with NIR dryers.
- Variable speed shingling conveyor available, either right angle or straight away.

Features:

- MailRunner® with eZ-Inkjet® 4.25" printer prints commercial 10 envelopes in the short direction at speeds in excess of 48,000 per hour! <https://youtu.be/RhpmVMcUphk>
- MailRunner's base is able to handle product widths from 3" up to 17", and lengths from 3" up to 28" long and single sheets up to 1.0" thick. Quick and easy setup, variable speed transport with adjustable infeed product guides and ergonomic operator panel.
- Feeds a wide variety of products with a high capacity feed hopper and independently controlled self-contained vacuum.
- Feeds bags envelopes, heavy card stocks, corrugated cardboard, jewel cases, perfect bound books, calendars, sheet stocks, postcards and various sized envelopes.
- eZ-Inkjet®, the fastest (50 KHz) state-of-the-art printer, prints natively at 600x600dpi resolution and at speeds up to 375 feet per minute with environmentally friendly water and uv based inks.
- eZ-Inkjet's hardened stainless steel bottom plate is much more durable than comparable Kyocera systems.
- eZ-Inkjet® prints as small as 2 point fonts, as well as small 2D/QR bar codes so every piece can be personalized; this includes individual dynamic bitmap graphics.
- Also available is our Marcador Pro cartridge based printer that provides for very easy setup and simple maintenance. Includes a lifetime warranty on the electronic. <http://www.marcador.us>
